1.0 Namibia Monthly Employee Tax (ETX)

The Ministry of Finance published a Press Release on 7 December 2018 (please see attached). According to the Press Release, The Ministry of Finance has developed an integrated information technology solution for administration of taxes.

The new system known as Integrated Tax Administration System (ITAS) will replace the existing legacy system (Taxlive) and is expected to become operational as from 17 January 2019.

There are two ways to submit the Employees Tax Return online:

- Capture employee's details individually (one by one), or
- Complete and upload the excel sheet template (with all the employee's details) generated from the payroll.

The payroll system is required to generate the excel sheet template populated with the required values. The report must be generated and submitted monthly.

The new ETX Return is available on the Namibia Report Screen.
