

IRP5 Validation Error

Amount for Medical Scheme Tax Credit is negative

Background

Validation error populated when running the IRP5/IT3a report from VIP for the Interim reconciliation / Tax Year End reconciliation.

Amount for Medical Scheme Tax Credit is negative

When running the IRP5 report, the following validation error appears

To rectify the error, you can follow the steps below:

- Access the MHS screen of the individual mentioned on the error report
- Confirm that the Tax Credit values on the Monthly Contribution History and Summary Record are the same
- Should there be invalid Additional Tax Credits calculated, do a beneficiary adjustment, and remove the adjustment and confirm the value is removed
