

The Compensation for Occupational Injuries and Diseases Act (COIDA) provides for compensation for disablement caused by occupational injuries or diseases sustained or contracted by employees in the course of their employment, or for death resulting from such injuries or diseases.

For the Department of Employment and Labour to provide for this compensation, every employer (excluding exempt employers) must submit a return of earnings report (W.As.8) once a year before 31 March to the Commissioner, showing:

- the amount of earnings (up to the limit) paid to the employees during 1 March the previous year to the 28/29 February of the current year, and
- such further information as may be prescribed or as the Director-General may require.

3. Printing the OID report from Sage Classic, Premier or Sage200c VIP

Please Note: If you have multiple companies in your payroll application which form part of the same Return of Earnings submission, the OID Report must be printed individually per company, due to the different company setups and pay frequencies (monthly, weekly, bi-weekly and other). Consolidating or Grouping the report will lead to incorrect calculations

3.1 Selection Screens for the OID/WCA report

Sage Classic, Premier and Sage 200c VIP provides Selection Screens when the report is printed, so that the user can select which Earnings, Company Contributions, XS, Own and Perks Tax Screen items must be included in the report. You may tick and un-tick items on the Selection Screens. The first page of the report prints the settings that were in use when the report was printed.

The first screen that is displayed when the OID Report is selected explains which items should be included:

Continue

Continues to the Selection Screens but leaves the defaults as they were when the report was last printed.

Reset to Defaults

Resets the defaults according to the definitions of the various lines, but the Selection Screens are still displayed and the user can then tick and un-tick items if necessary.

Use the IRP5 Codes on the Earnings, Company Contribution, Calculation (XS), Own and Taxable Benefits (Perks Tax) Screens to tick the relevant items when one clicks on “Reset VIP Defaults”.

Below is an example of a simple Earnings Selection Screen. The other Selection Screens are similar:

6. Explanation of the Summary section of the OID Report

On the W.As.8 Form the employees that have OID Earnings up to and including R458 820 p.a. and those employees with OID Earnings above this amount must be shown separately. Directors in each of these brackets must be shown separately from “ordinary” employees.

Up to R458520 p.a.	Average Number	Amount	Above R458520 p.a.	Average Number	Amount	Total
Directors	.00	0.00	Directors	1.00	458520.00	458520.00 (4)
Normal Employees	14.08	962027.00	Normal Employees	.00	0.00	962027.00 (3)
Total Employees	14.08 (1)	962027.00	Total Employees	1.00 (2)	458520.00	1420547.00

- There is 1 Director in the Company and his OID earnings are above the OID limit.
- There are 14.08 Normal Employees in the Company whose OID earnings fall within the OID limit.

The employees are counted using the number of OID periods in the year that the employee has been in service as a fraction of the total number of OID periods so far in the year (see explanation below at point 5.1). The total amount of R962 027.00 is the total of the adjusted OID Earnings of the 14.08 Normal Employees. These employees’ adjusted OID Earnings are all below the limit and therefore print on the left side of the report.

- There are no Normal Employees in the Company whose OID earnings are more than the OID limit. If there were, the OID limit would have been used as the OID earnings.

Please Note: Remember that the current OID limit amount of **R458 520** is for the full tax year of 12 months.

6.1 Calculation of Average Number of Employees

The Average Number of employees in each of these groups is calculated as:

Actual Number of periods worked by employees in this group x Number of Employees in this group

Total number of periods that could have been worked by employees in this group

As an example, we will look at the employees with earnings that fell within the OID limit.

Up to R458520 p. a.	Average Number	Amount	Above R458520 p. a.	Average Number	Amount	Total
Directors	.00	0.00	Directors	1.00	458520.00	458520.00 (4)
Normal Employees	14.08	962027.00	Normal Employees	.00	0.00	962027.00 (3)
Total Employees	14.08	962027.00	Total Employees	1.00	458520.00	1420547.00
	(1)			(2)		

14 Employees worked 12 periods – 14 x 12 = 168

1 Employee worked 1 period

Actual number of periods worked: 168 + 1 = 169

There are 15 employees that could have worked 12 periods each = 180 periods

$$\frac{169 \times 15}{180}$$

$$= 14.08$$

Please Note: Every employee who completed a full OID year will count as 1. Every employee who completed a portion of a full year will be calculated as OID periods / periods in OID year.

8. Note on Package Structuring and OID

In your payroll application, the word “Package” for the whole of the “Cost to Employer” is often used, i.e. the employer’s contributions to the employee’s Medical Aid, Pension Fund and/or Provident Fund are included in the employee’s “Package”.

The wording of the W.As.8 in the paragraph explaining which Earnings must be Included for OID, refers to Packages as follows:

“Where the employee is remunerated in accordance with a package of benefits, all items forming part of the package, other than employer contributions such as medical aid contributions”.

It has been confirmed with OID that this should be read *in conjunction* with the point under Excluded which reads:

“Intangible fringe benefits such as the taxable portion of medical aid, pension contributions by the employer, etc.”

Therefore, if a “Cost to Employer Package” includes Medical Aid Contributions, Pension Contributions and/or Provident Fund Contributions, these Employer Contributions must NOT be included in the Earnings for OID purposes

9. How to complete the W.As.8 form

The Employer will need to manually complete the Provisional Earning Section, but the Actual Earnings will automatically be populated from the data on the payroll system.
