Sage VIP Classic and Premier
Steps to download the software from the Customer Zone

In order to download the installation software for the Sage VIP Classic and Premier system, please follow below steps:
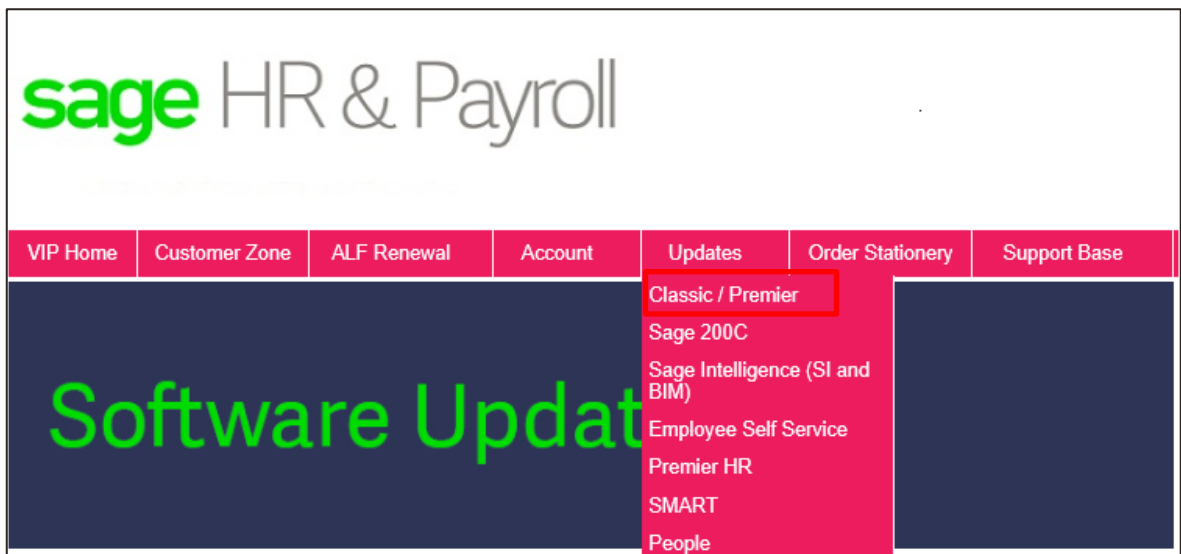

Step 1
Log on to the Customer Zone
The Site code and Primary email address must be completed to access the site.
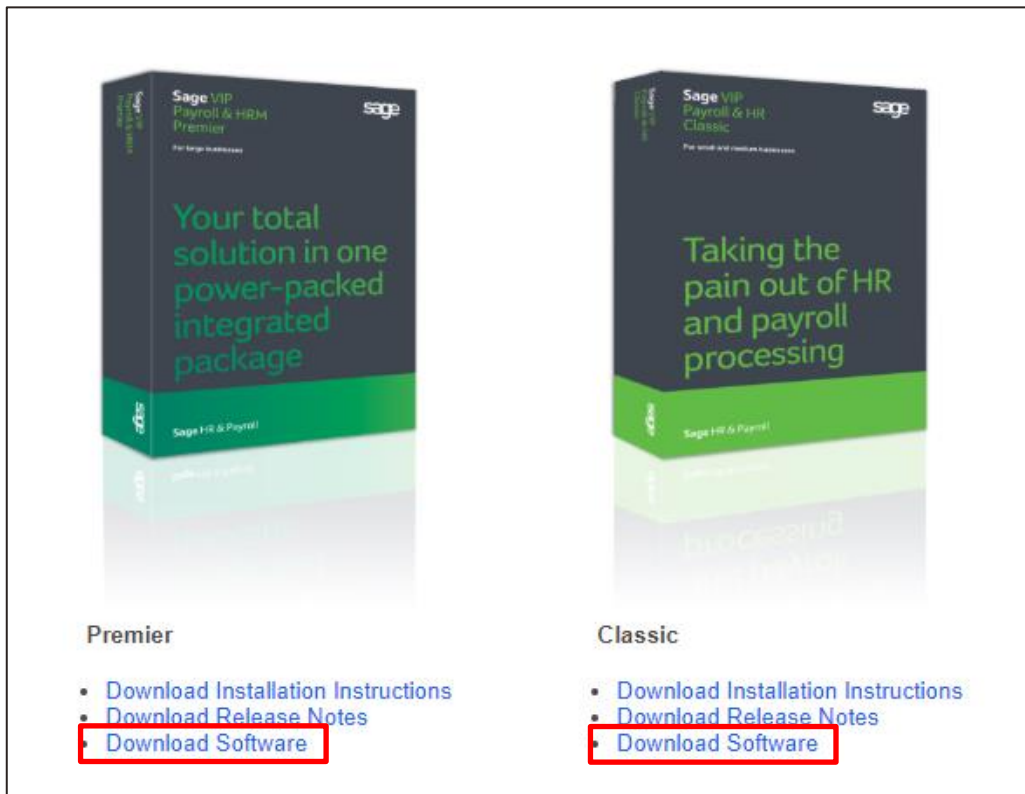

Step 2
Click on Updates > Classic / Premier

Step 3
In the block "Release 5.2a" click on the link titled 'Click Here to View'

Release 5.2a

Classic and Premier users currently on Release 5.1a+ MUST upgrade to Release 5.2a in March 2019. All users must install Release 5.2a into their live VIP systems, and RSA users must also install in their February 2019 copy systems before creating IRP5 export files. Users who do not update to Release 5.2a in March, will not be able to start a new period into April 2019 as there is a STOP in the system.

Click Here to View

Step 4
Click on "Download Software" on the applicable software package (Classic or Premier) and to start downloading the software. We recommend you download the Installation Instructions and Release Notes for detailed information regarding the new release:

Step 5
The browser will automatically start downloading the to your local Downloads folder (or another folder, if specified).

If you are given the option to Run or Save the file, we recommend that you select "Save" and save the file before running the installation.

Step 6
Once the download is complete, your browser will automatically launch the install, or you will be required to locate the install file and then run it.
