

# e@syFile Errors

When Employment Tax Incentive indicator (3026) is 'Y' then Employment Date (3190) must be on or after 01/10/2013

## Background

When importing the file into e@syFile the import will fail and there will be 2 errors related to one another:

## Possible Solution:

- Access the Employee Information Screen (IS) Employment Tax Incentive (ETI) tab
- Ensure the ETI Engagement Date is completed, and is on or after 01/10/2013, if ETI was calculated on the employee record
- The system does warn users to validate this date when loading or changing an engagement date on a record
